## + Domovil

Our **Domovil** lift, which we ourselves manufacture, provides you with a smooth, reliable ride of up to 15 metres.

This is a an electric or hydraulic lift with a reduced speed of up to 0.15 m/s, specifically designed for family homes and facilities in need of an accessible piece of equipment with a few stops, combining the smooth, quiet and comfortable benefits of a Familift with the low consumption of a Eulift.

Domovil complies with the most rigorous standards of quality and safety in accordance with Machinery Directive 2006/42/CE and Regulation EN 81.41.

Moreover, it consumes a relatively low amount of electricity and can be single-phase like household appliances.

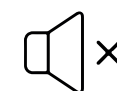

Enhance the comfort  
and accessibility of your  
home with our Domovil  
lifts.

## + Equipped for your safety

- Standard photoelectric barrier as standard with automatic doors.
- Interior cabin telephone of the wall-mounted type. Plus an optional built-in telephone.
- Emergency batteries in the event of a power outage and to open the doors.
- Approved access doors.
- Immediate mechanical wedging in the event of a hypothetical breakdown or loosening of suspension cables.
- Non-slip floor.

## + Advantages of our Domovil

Silent and comfortable.

Consumes the same electricity as a household appliance.

Equipped with a built-in telephone.

No need for a machine room.

Emergency batteries.

Customised to your liking.

Made in Spain.

# + Types of Domovil Hydraulic
